Bows

Bow Materials

VELVET

A timeless classic. What separates our velvet from other velvets on the market? The backing. Our backing is 4mm thick compared to the standard 3mm on import bows, increasing the durability of the bow and its resistance to tearing. Steel frame velvet bows have a nylon backing to help prevent tearing. Aside from our stock items, we can customize fabric to meet your specific needs.

Colors: Red; Holiday Red.

Lifespan: 2-5 years.

Storage: Please store in the boxes they come in.

• *This product is for indoor and outdoor use.*

NYLON

Our most versatile line of products with three stock colors and multiple custom colors.

Colors: Canada Red; Old Glory Red; Royal Blue.

Lifespan: 2-5 years.

Storage: Please store in the boxes they come in.

• *This product is for indoor and outdoor use.*

◀ **Ask us about custom nylon colors.**

OUTDURA

**OUR
#1
SELLER!**

This line of products has the most durable items we offer, and when the cost per year basis is considered, it's much more cost effective than import products. The fabric has outstanding fade and tear resistance. We offer our classic stock color as well as multiple custom colors to fit your needs.

Colors: China Red.

Lifespan: 6-7 years or more!

Storage: Please store in the boxes they come in.

• *This product is for indoor and outdoor use.*

MYLAR

The fabric of mylar bows catches and reflects light to give you a sparkling look. Mylar can also be split down for custom trims on the other fabrics we offer. Additionally, our backing now has a -10 degrees cold crack rating.

Colors: Gold; Silver.

Lifespan: 2-5 years.

Storage: Please store in the boxes they come in.

• *This product is for indoor and outdoor use.*
